EDUCATION

Geethanjali College of Engineering and Technology
B.Tech in Computer Science (Affiliated with JNTUH) – CGPA: 7.5

Hyderabad, India
Expected May 2027

OPEN SOURCE EXPERIENCE

Google Summer of Code (Git)

Remote

Core Contributor

May 2026 – Present

- Selected for a **12-week GSoC Large Project** to contribute directly to the core **Git version control system** in **C**.
- Designed and implemented **git repo info** and **git repo structure**, adding two new top-level commands to help developers map and manage complex repository architectures.
- Authored **15+ patch series**, navigating rigorous mailing-list code reviews with core maintainers to merge stable memory-management code into Git's upstream **master** branch.
- Refactored internal logic for critical commands like **git stash** and **git submodule**, optimizing execution paths used by **100 million+ developers** globally.

LEADERSHIP & COMMUNITY

Open Source Club (GCET Engineering)

Hyderabad, India

Founder & President

Sept 2025 – Present

- Founded the institution's primary open-source engineering community, scaling it to **55+ active student developers**.
- Personally mentoring a small cohort of **5 engineers**, guiding them through **systems programming** fundamentals and the process of preparing upstream patches.

TECHNICAL PROJECTS

Gink – Systems Programming Language Specification

Grammar, Type Systems

github.com/jayatheerthkulkarni/gink

Jan 2026 – Present

- Authored a **formal language specification manual** from scratch, detailing the semantic rules, **context-free structural grammar**, and strict **memory bounds** for a new compiled language.

Auth – Production Authentication Library

Go, PostgreSQL, JWT

github.com/GCET-Open-Source-Foundation/auth

Oct 2025 – Present

- Built a drop-in **backend authentication service in Go**, eliminating **40%** of the boilerplate code historically required for new campus engineering projects.
- Designed a **PostgreSQL** database schema to natively handle **JWT** verification loops and hierarchical **Role-Based Access Control (RBAC)**.

HONORS & AWARDS

Git Project Community Travel Grant

International

Fully Funded Attendee – Git Merge 2026 (Portugal)

Sept 2026

- Awarded an exclusive, **fully funded travel grant** to attend the global Git contributor summit based on upstream mailing list impact and core codebase contributions.

Git Rev News Developer Feature

Global

Featured Contributor – Issue #124

June 2025

- Featured by Git's maintainers for designing and landing an impactful patch series that successfully resolved a critical **submodule memory management** defect.

TECHNICAL SKILLS

Programming Languages: C, C++, Go, Java

Developer Systems & Databases: Git, PostgreSQL, Linux
